Preparations Before Vaccine

The success of vaccines is strongly influenced by the strength of the body's immune system. Therefore, there are several things that can be tried to make the COVID-19 vaccine work :

Avoid alcoholic beverages ⏷

Avoid stress ⏶

Stress has a profund effect on immune work. Moreover, prolonged stress can increase cortisol production and oxidative stress in the body.

Eat healthy food ⏷

Get enough sleeh ⏷

Exercise or physical activity ⏷
